#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 01 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-6, 13, drawn to method of modifying functions of device by software.

Group II, claims 7-9, drawn to terminal device comprises a first analog interface, a first D/A converter, a first A/D converter, a DSP, a second D/A converter, a second A/D converter, and a second analog interface circuit.

Group III, claim 10, drawn to a terminal device comprises a duplexer, a cable tuner, an RF transmitting front-end, a PSTN interface, a serial interface.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of the Group I invention is the particular method of defining cable network system, modifying functions of device by software, the technical feature of the Group II invention is the specific terminal device comprises a first analog interface, a first D/A converter, a first A/D converter, a DSP, a second D/A converter, a second A/D converter, a second analog interface circuit, the special technical feature of the Group III

Art Unit: 2623

invention is the particular terminal device comprises a duplexer, a cable tuner, a RF transmitting front-end, a PSTN interface, a serial interface. Since the special technical feature of the Group I invention is not present either in the Group II claims or in the group III claim, the special technical feature of the group II invention is not present either in Group I claims or in group III claim, and the special technical feature of Group III invention is not present either in the Group I claims or in the group II claims, unity of invention is lacking.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

4. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
